

Stakeholder workshop, Begusarai, Bihar on 12/7/2024

As part of the IndusInd Bank-supported CSR project 'Climate Resilient Sustainable Agriculture and Livelihoods,' CACS (IITM), in collaboration with PFRI, Kolkata, organized a stakeholder workshop in Begusarai on July 12, 2024. The workshop aimed to foster convergence and strategic collaboration with various governmental line departments connected to the project theme. It was successful, receiving encouraging inputs from the District Agriculture Officer and other participating officials. Local farmers discussed the project's potential impact on their agricultural production, with several expressing interest in collaborating and implementing the new model of float farming on parts of their flood-prone agricultural land during previous field visits.
